Collaborative Task Board is a full-stack task management web application built using the MERN Stack (MongoDB, Express.js, React.js, Node.js). It allows users to create, update, delete, and mark tasks as completed in a visually clean and responsive interface. Designed with a modern UI using Tailwind CSS, this app also integrates Toast notifications, real-time updates, and responsive design for all screen sizes.

GlobalBites   24 Feb, 2025 - 30 Mar, 2025
Mentor: Mukta Mam | **Team Size:** 4

Key Skills: ReactJS · Scss · Javascript · Express.js · NodeJS · API · HTML · Responsiveness

Project Link: https://globalbites.vercel.app/

GlobalBites is a full-stack recipe recommendation website that allows users to search for recipes based on available ingredients. The platform is powered by React.js (frontend) and Node.js with Express.js (backend). It integrates the Spoonacular API to fetch recipe data, prioritizing Indian cuisine before displaying other international dishes. The project also features Google Authentication, user-friendly filtering, and a secure, scalable backend deployed on Render. Hosting: Vercel (Frontend) & Render (Backend)

Weather   14 Jan, 2025 - 15 Jan, 2025
Mentor: None | **Team Size:** 1

Key Skills: HTML · CSS · Javascript

Project Link: https://weather-app-adarsh.vercel.app/

I developed a responsive weather application using HTML, CSS, and JavaScript, powered by a Weather API. The app allows users to search for current weather conditions in any location, displaying key details like temperature, weather conditions, and more. It's designed with a clean interface and ensures a smooth user experience across devices.

Portfolio Website   11 Dec, 2024 - 06 Jan, 2025
Mentor: None | **Team Size:** 1

Key Skills: HTML · CSS · Javascript · ReactJS

Project Link: https://adarshsinghdev.vercel.app/

I have strong skills in front-end web development using HTML, CSS, and JavaScript to create responsive and attractive user interfaces. I am experienced in building dynamic and interactive web applications with ReactJS, using components, hooks, and state management to make the apps more efficient and user-friendly.
